REALITY INSTRUCTOR TRAINING

YOUR PARTNER IN SUCCESS

INSTRUCTOR TRAINING

PART 2 TRAINING and REQUIREMENTS.

“”Driving the essential skills” book and the “practical test explained” will support your Part 2 practical work.

You will no doubt have accumulated some habits – good or bad – lets just call them habits. We will have to replace some of the habits with good practice and good habits. We can tell you what to do, why to do it, how to make it a habit. What we can’t do is practice for you – that’s up to you.

We estimate that you will require 10 to 12 hours of training based on the following:

- *Session 1* *2/3 hours: Practical driving skills and good habits.*
- *Session 2* *2 hours: Manoeuvring and developing Session 1 skills.*
- *Session 3* *2 hours: High-speed work and emergency stop.*
- *Session 4* *2 hours: Mock test and fixing the faults.*
- *Session 5* *2/3 number of hours: as required to get you to test standard if required*

  IT’S UP TO YOU – PRACTICE MAKES PERFECT
  The more you practise – the less you pay us!

You will be given reports and feed back forms from each session. Practice notes to take and study. Some video recording is done to help you recall the work.

On your test you will be required to perform:

Right reverse
Left reverse
Turn-in-the-road
Bay park or Parallel park
Emergency stop at up to 60mph.

On top of this hazard awareness, planning, judgement, position, observations, lane discipline, plus a host of others will be judged. 6 driving faults are allowed – we aim for none.

Cost per hour for Part 2 is £35.00

Training time will probably be 2 hours – miss 2 weeks for practice then 2 hours more.
Training is 1-2-1. If you wish you can stay in the car whilst others are being trained – but remember this is not your session.

We hold Advanced Driver qualifications and teach advanced driver techniques regularly. This knowledge will be passed on to you. As far as I am aware none of the other PDI training schools have these qualifications. Imagine how much better you will be as an ADI with all of this knowledge and how your customers will talk to their friends about what a good instructor you are.
